Q-40. 다음 글의 내용을 한 문장으로 요약하고자 한다. 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것을 고르시오.

Mother cats can tell **which kittens belong to them** — when litters are mixed up they use their kittens' scent to distinguish them from offspring of other mothers. Despite this, **when faced** with a selection of kittens who have wandered from the nest, her own and others that aren't hers, a mother cat doesn't appear to favor her own offspring **when retrieving** them. The reason for this is uncertain, although distress vocalizations from kittens that are lost from their nest are known to be very powerful, so **it may just be hard for the mother to resist retrieving them**, regardless of whether they are hers. In the wild, a squeaking kitten out in the open is likely to attract predators, **which is bad news** for any other kittens around it. A rapid rescue of any crying kitten would be a good strategy to prevent them from drawing unwanted attention.

S+V, [종속절: 양보], 절+S+V, 부사구

* squeak: 끽(찍)하는 소리를 내다

litter 한 배에서 난 새끼들, 쓰레기, 쓰레기를 버리다
scent 냄새
distinguish A from B A를 B와 구별하다
offspring 새끼, 자손
wander 헤매다
favor 편애하다

retrieve 데려오다, 회수하다
distress vocalization 고통의 울음소리
resist -ing ~하려는 충동을 억누르다
regardless of ~와 관계없이
out in the open 노출된 곳에서
predator 포식자

draw attention 관심을 끌다

Q-40. 다음 글의 내용을 한 문장으로 요약하고자 한다. 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것을 고르시오.

Although mother cats can identify their own offspring, they are likely to (A)_____ any lost crying kittens, possibly to reduce the chances of being (B)_____ by predators.

① raise … deceived
② collect … detected
③ collect … distracted
④ abandon … awakened
⑤ abandon … chased

reduce the chances of ~의 가능성을 줄이다
raise 기르다
abandon 버리다
deceive 속이다
detect 감지하다, 발견하다
distract 주의를 산만하게 하다
awaken 깨우다
chase 뒤쫓다

① 접속사 + 분사

Despite this, / **when faced** with a selection of kittens / who have wandered from the nest, / her own and others that aren't hers, / **a mother cat doesn't appear to favor** her own offspring / **when retrieving** them.

- **when faced :** when (a mother cat is) faced with ~
- **when retrieving :** when (a mother cat is) retrieving
- 동격 삽입 **:** her own and others ~는 앞의 kittens를 구체화

② **prevent A from B**

a good strategy / to **prevent them** / **from drawing** unwanted attention.

- **A**를 **B**로부터 막다, **A**가 **B**하지 못하게 막다 **:** "그들이 관심 끄는 것을 막다"

③ 수동태가 불가능한 **2**형식 동사

- **belong to :** ~에 속하다
- **consist of :** ~으로 구성되다
- **look :** ~해 보이다
- **seem :** ~처럼 보이다
- **appear :** ~인 듯하다

Mother cats can tell which kittens belong to them — when litters are mixed up they use their kittens' scent to distinguish them from offspring of other mothers. Despite this, when faced with a selection of kittens who have wandered from the nest, her own and others that aren't hers, a mother cat doesn't appear to favor her own offspring when retrieving them. **The reason for this is uncertain,** although distress vocalizations from kittens [that are lost from their nest] are known to be very powerful, **so it may just be hard for the mother to resist retrieving them,** regardless of whether they are hers. In the wild, a squeaking kitten out in the open is likely to attract predators, which is bad news for any other kittens around it. A rapid rescue of any crying kitten would be a good strategy to prevent them from drawing unwanted attention.

* squeak: 끽(찍)하는 소리를 내다

[주장] **1.**
- 어미 고양이는 자기 새끼를 구별할 수 있음

[주장] **2.**
- 그럼에도 구조를 할 때 자신의 새끼만 편애하지 않음

[근거] 이유 **1.**
- 모성 본능 때문에

[근거] 이유 **2.**
- 포식자에게 노출되지 않도록
