Q-31. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오. [3점]

When we get an unfavorable outcome, in some ways the last thing we want to hear is that the process was fair. **As outraging as the combination of an unfavorable outcome and an unfair process is,** this combination also brings with it a consolation prize: **the possibility of attributing the bad outcome to something other than ourselves**. We may reassure ourselves by believing that our bad outcome had little to do with us and everything to do with the unfair process. If the process is fair, however, we cannot nearly as easily _____ the outcome; we got what we got "fair and square." When the process is fair we believe that our outcome is deserved, which is another way of saying that there must have been something about ourselves (what we did or who we are) that caused the outcome.

* consolation: 위로

unfavorable 불리한, 바람직하지 않은
outcome 결과
the last thing 가장 ~하고 싶지 않은 것
outraging 격분하게 하는

other than ~ 이외의
reassure 안심시키다
have little to do with ~와 거의 관련이 없다
fair and square 공명정대하게
deserved 마땅한, 자초한
must have been ~임에 틀림없다

도입
나쁜 결과 뒤에 가장 듣기 싫은 말: 「절차는 공정했다」.

전개
불공정한 절차는 화를 유발하지만, 원인을 외부로 돌릴 수 있다는 위안도 줌.

전환
절차가 공정하면 결과를 쉽게 외부 탓으로 돌릴 수 없음.

결론
결과는 자신이 마땅히 받을 몫이며, 원인이 자신에게 있음을 인정하게 됨.

정답
③ externalize

오답 구별
expect는 결과의 예측 문제. 이 글은 결과의 원인을 어디에 돌리는지의 문제.

The well-known American ethnologist Alfred Louis Kroeber made a rich and in-depth study of women's evening dress in the West, stretching back about three centuries and using reproductions of engravings. **Having adjusted the dimensions of these plates** due to their diverse origins, he was able to analyse the constant elements in fashion features and to come up with a study that was neither intuitive nor approximate, but precise, mathematical and statistical. He reduced women's clothing to a certain number of features: length and size of the skirt, size and depth of the neckline, height of the waistline. He demonstrated unambiguously that fashion is _____ **which is not located at the level of annual variations but on the scale of history**. For practically 300 years, women's dress was subject to a very precise periodic cycle: forms reach the furthest point in their variations every fifty years. If, at any one moment, skirts are at their longest, fifty years later they will be at their shortest; thus skirts become long again fifty years after being short and a hundred years after being long.

Q-31. Paraphrasing Relay · 문장 이어 쓰기

[도입] When we get an unfavorable outcome, we hate to hear that the process was fair.

부연 | **consolation / unfair**

In fact, an unfair process makes us angry, but it also gives us a consolation prize.

원인 | **externalize / ourselves**

This is because we can externalize our bad outcomes to the unfair process, not to ourselves.

반전 | **fair / blame**

On the other hand, if the process was fair, we cannot easily blame other things.

결론 | **deserve / accept**

Therefore, we accept that our bad outcome was fully deserved by our own actions.

3인 모둠의 마지막 문장 예시: On the other hand, if the process was fair, we accept that our bad outcome was fully deserved, rather than blaming other things.
